BUILDING INTELLIGENT

Systems For
A Smarter Future.

AI-Driven Product Development | Software Engineering | Growth Innovation

WHO WE ARE

YOUR AI VENTURE PARTNER

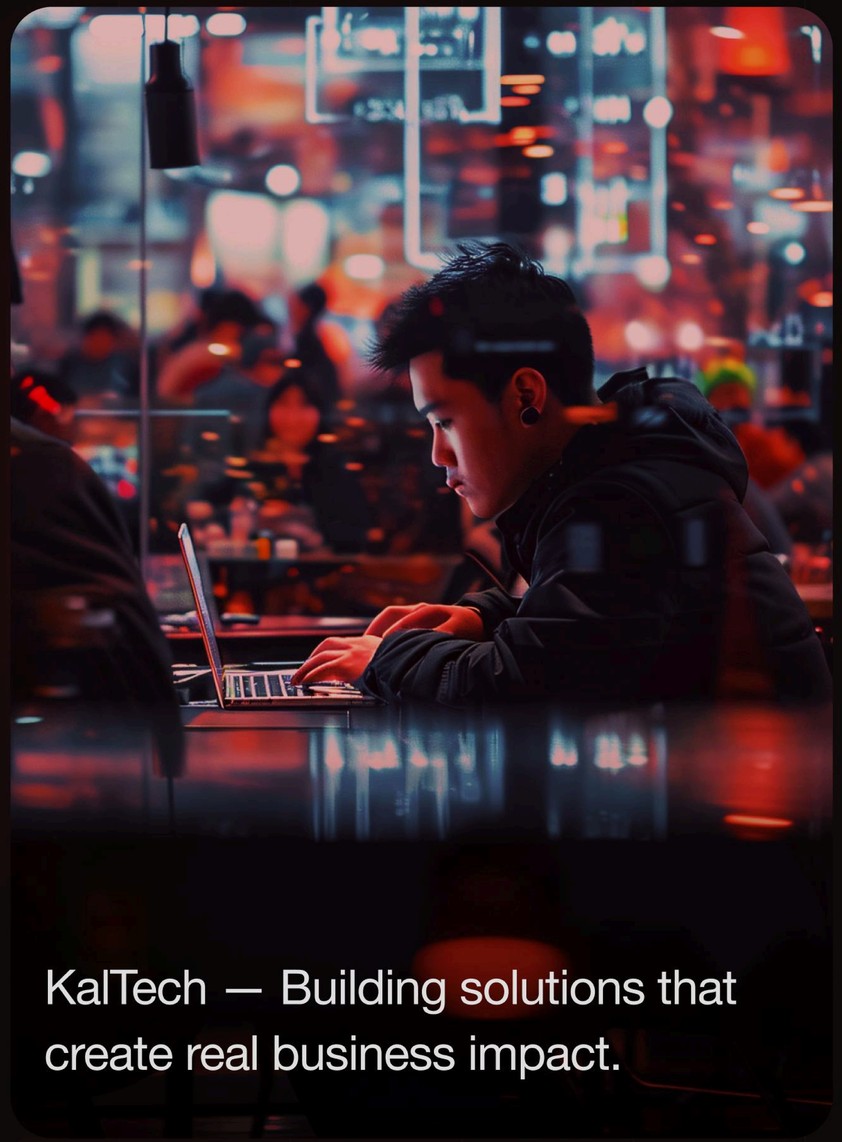
KalTech is a full-stack venture studio specializing in AI-driven product development, software engineering, and growth marketing. We build intelligent systems that help businesses operate smarter, scale faster, and lead the future.

Vision

To shape a smarter future by designing AI-driven solutions that empower businesses to work more intelligently, grow faster, and lead confidently in an ever-evolving world.

Mission

To engineer scalable, AI-powered solutions that drive growth and transform industries — helping clients lead in an ever-evolving digital world.



WHY CHOOSE KALTECH

TRANSFORMATIVE IMPACT, WITH KALTECH

AI-First Approach
Building intelligent systems, not just software.

Full-Stack Expertise
From product development to AI integration.

Enterprise-Ready Execution
Agile, scalable, and built for real-world growth.

Strategic Alignment
Beyond tech we build for your business success.

Proven Results
500+ startups served, $5M+ growth enabled.

OUR SOLUTIONS

CUSTOM DEVELOPMENT SERVICES

Crafted to perform, built to scale, engineered for impact.

01
Web & Mobile App Development

Cross-platform apps built with speed, scalability, and seamless user experiences.

02
Product Strategy & MVP Launch

From concept to market—strategic MVPs that validate and accelerate growth.

03
E-commerce & Plugin Development

Robust online stores and custom plugins optimized for conversion and performance.

04
DevOps, Integrations & Cloud

Streamlined deployment, scalable systems, and cloud-native architecture.

05
Staff Augmentation & Engineering Teams

Flexible, skilled tech teams embedded to accelerate your roadmap.

OUR SOLUTIONS

AI - POWERED SOLUTIONS

Enabling intelligent automation and smart decision-making.

01
Generative AI Solutions
Smart assistants and content automation.

02
Autonomous Agents
Self-operating systems for business tasks.

03
LLM Integration & Deployment
Custom-tuned, secure language models.

04
AI Customer Experience
Smarter chats and tailored journeys.

05
AI for Sales & Marketing
Predictive tools to drive growth.

06
AI Customer Experience
Smarter chats and tailored journeys.

07
AI for Sales & Marketing
Predictive tools to drive growth.

OUR TECHNOLOGY STACK

End-to-end expertise across the modern tech landscape.

Frontend Development

React | Next.js | Flutter

Backend Development

Node.js | Nest.js | Python | Laravel | Spring Boot

AI & Machine Learning

Generative AI | LLMs | Computer Vision | Predictive Analytics

Cloud & Infrastructure

AWS | GCP | Azure | Private Cloud

Web3 & Blockchain

Smart Contracts | NFT Marketplaces | Token Launchpads

DevOps & CI/CD

Docker | Kubernetes | Terraform | GitHub Actions

Data & Analytics

SQL | NoSQL | Firebase | Real-Time Dashboards

Marketing Technologies

SEO Automation | AI-Powered Ad Optimization

OUR PROCESS

FROM IDEA TO IMPACT

KalTech's process fuses deep technology expertise with AI innovation — from idea to scalable impact.

Strategy & Architecture

Align on business goals, user needs and AI opportunities. Define product vision, AI scope and technical roadmap, then design scalable, secure system and UX/UI blueprints.

Build & Validate

Develop AI models and full-stack application through agile sprints. Rigorous QA, performance testing, security checks and AI output validation—fine-tuning as you go.

Launch & Evolve

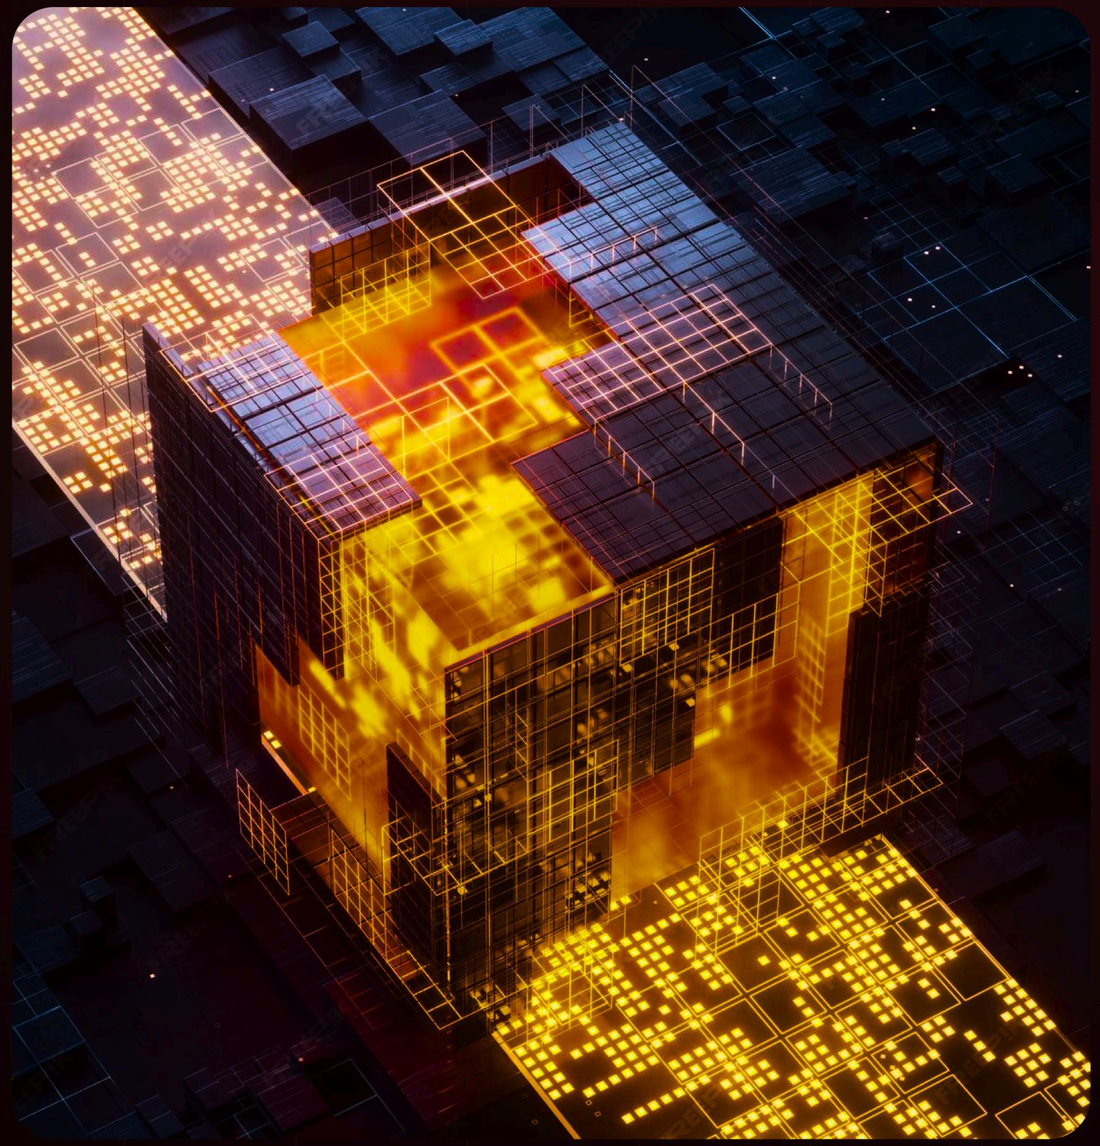
Deploy seamlessly to the cloud, then continuously scale infrastructure, retrain models, enhance features and optimize based on user feedback and KPIs.

HOW WE ENGAGE

ENGAGEMENT MODELS

- Dedicated Teams / Staff Augmentation
- Agile Retainers
- Time & Material (Hourly Engagement)
- Fixed Scope Projects

Flexible models, aligned with your scale and objectives.



DEDICATED EXPERTS

Shershah Hassan
Head of Business

Saad Riaz
Head of Tech

Hasan Mubarak
Head of Business Development

ML and Back-end Genius

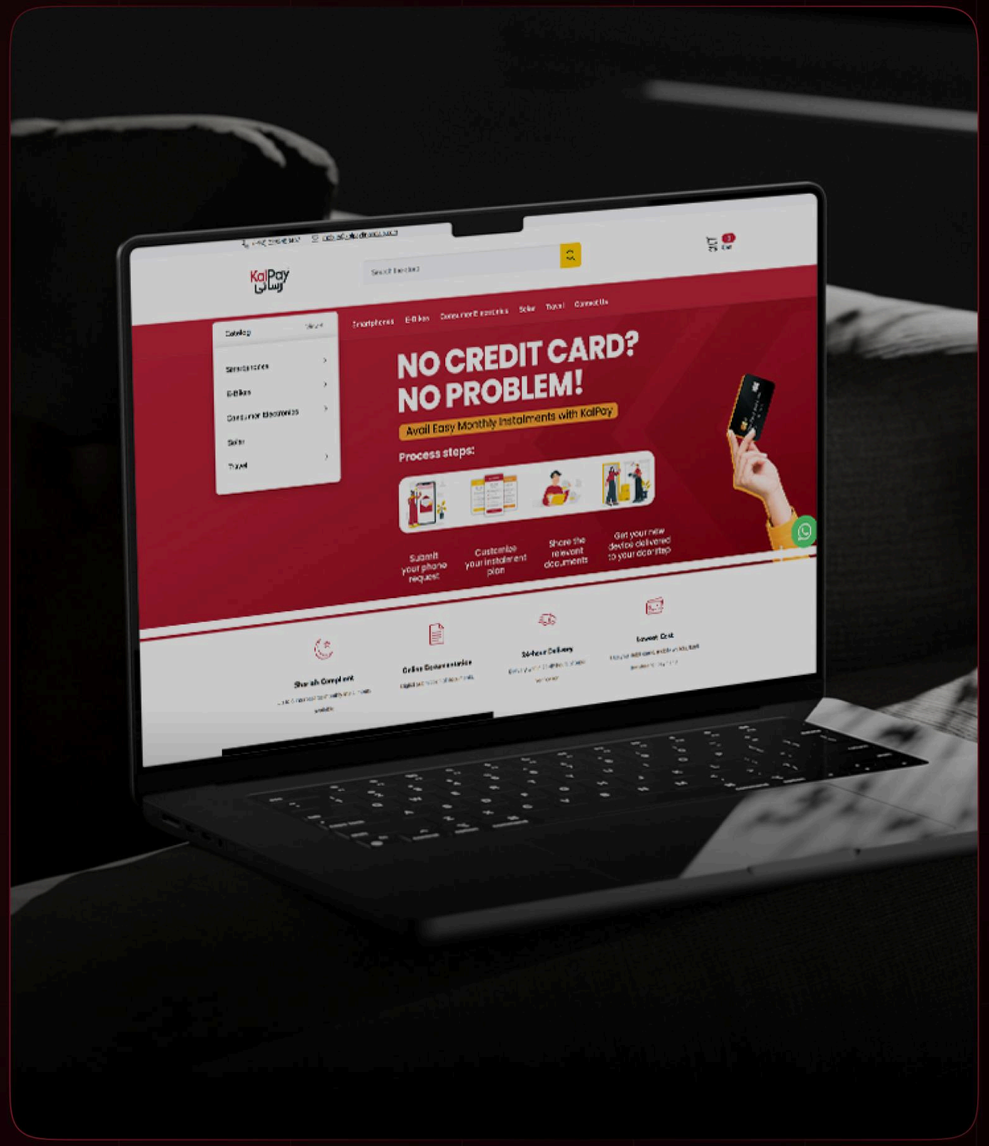
Amna Malik
Project Manager

OUR IMPACT

ACCELERATING AI INNOVATION AT SCALE

We deliver scalable solutions, fast and flawlessly.

Client revenue growth generated	$5M+
Combined leadership experience	30+ YEARS
Products built from scratch	10+
Users served across projects	100,000+
Record MVP delivery	14 DAYS



KALPAY 🇵🇰

Custom fintech platform for Pakistan's leading Shariah-compliant BNPL service

KalTech partnered with KalPay (AajKal Inc.) to design, develop, and scale a Shariah-compliant Loan Management System (LMS) and three vertical-specific marketing sites—Taleem, Rasayi, and Safar—within a 12-week MVP timeline. The solution involved complex workflow mapping, multi-role dashboards, and full-stack development using a modular Node.js backend, React front-end, and PostgreSQL database. We integrated secure APIs (ECIB, NADRA, Meta, WhatsApp, Stripe), enabling real-time data sync, automated installment tracking, and late fee handling. CMS-powered and SEO-optimized, the platform reduced manual processing by 60% and supports ongoing compliance, growth, and future white-labeling.

Industry: Fintech (BNPL) **Timeline:** 12-week MVP + Ongoing Rollouts

Scope: Custom LMS + 3 Marketing Sites **Platform:** Web Dashboard + Admin Panel + 3 Public Sites

Key Challenges

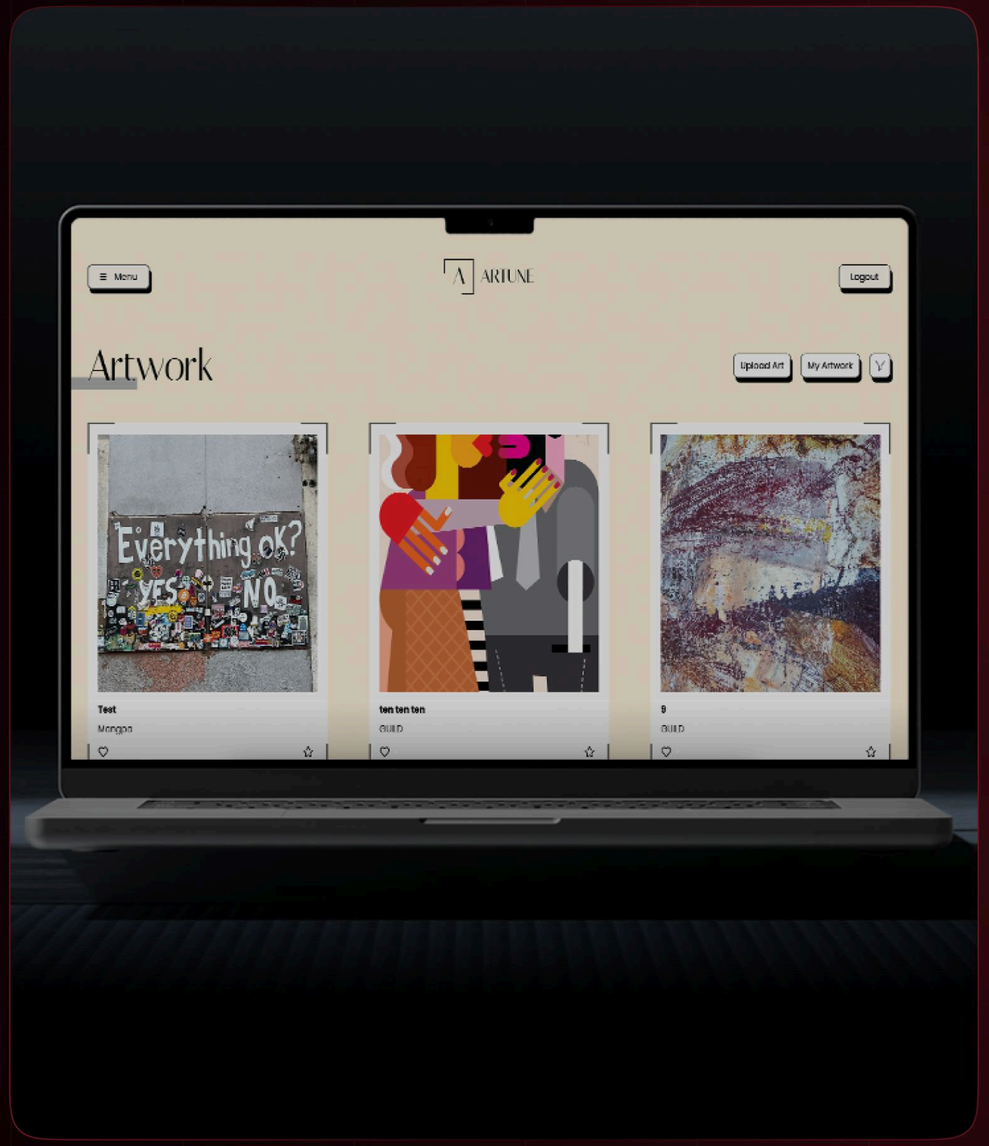
- No off-the-shelf LMS fit local, Shariah-compliant needs
- Multi-role access with complex loan lifecycle logic
- Real-time sync with ECIB, NADRA, WhatsApp CRM

ART TUNE 🇰🇷

Next-gen digital art marketplace for galleries and artists

KalTech partnered with Art Tune to deliver a fast, secure, and scalable MVP for their next-generation digital art marketplace. Designed for galleries and independent artists, the platform allows users to showcase, manage, and sell artwork online. The project demanded an end-to-end solution—including UI/UX design, full-stack development, and production deployment—within just 2 weeks. The platform includes artist and admin dashboards, role-based access controls, AWS S3 artwork upload, and a CMS-ready infrastructure, setting the stage for future Web3 integrations.

Industry: Web3 / Digital Art Marketplace
Timeline: 2 Weeks
Scope: Admin & Artist Dashboards
Platform: Web (React + Node.js)



Key Challenges

- MVP Web App (User + Admin Dashboards)
- AWS S3 Artwork Upload
- CMS-ready Infra + QA + Deployment

Deliverables

- Ultra-fast 2-week delivery timeline
- Upload & approval flows with AWS S3
- Clean, mobile-first UI with Web3-ready architecture

HYRING 🇦🇪

Swipe-based mobile platform connecting companies with freelance recruiters

KalTech partnered with Hyring to design and build a mobile-first recruitment marketplace in just 6–8 weeks. The platform allows companies to swipe through verified freelance recruiters, match in real time, and initiate chats—similar to Tinder, but for hiring. Built using Flutter and Firebase, the MVP includes recruiter/client onboarding, real-time matching, secure chat, notifications, and a modular admin dashboard. Designed for global scalability, Hyring transforms the way businesses engage on-demand recruitment talent.

Industry: HRTech / Freelance Marketplaces
Platform: Cross-platform Mobile (Flutter + Firebase)
Timeline: 6–8 Weeks
Scope: MVP Mobile App, Swiping System, Matching, Chat, Admin Panel

Challenges & Approach

- Needed a scalable, mobile-first UX with real-time swiping and chat
- Built recruiter and client onboarding flows with matching algorithms
- Integrated Firebase Firestore for real-time updates and chats
- Delivered clean, modular admin panel for approvals and management

THE GUILD 🇰🇷

Scalable full-stack developer support for fast-moving Web3 product teams

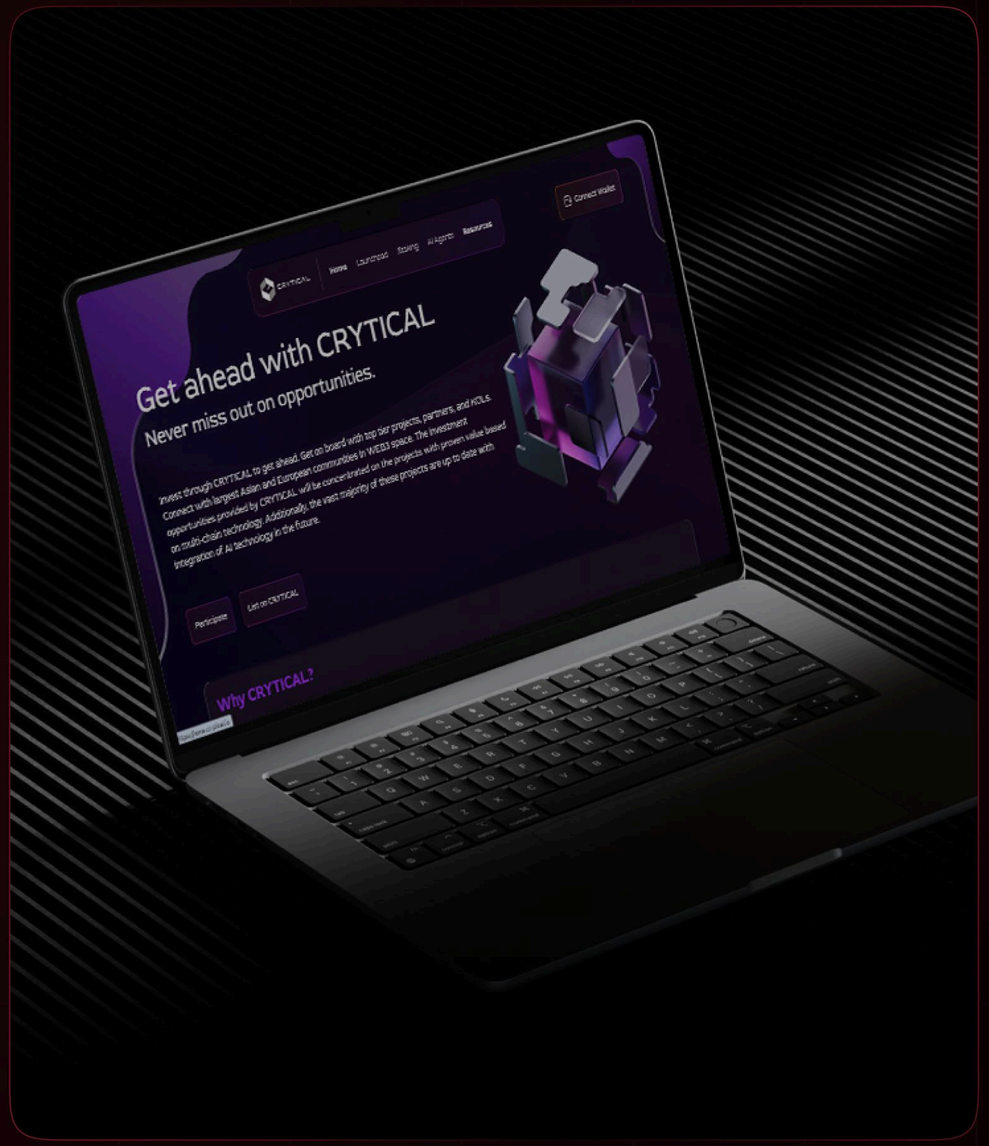
KalTech partnered with The Guild (Hong Kong) on an ongoing monthly retainer to embed experienced full-stack developers directly into their engineering team. Supporting multiple product streams—including NFT platforms, onboarding tools, and creative engagement apps—our developers worked in sync with The Guild's internal workflows. We ensured seamless collaboration across Slack, GitHub, and Notion while maintaining velocity, clean code standards, and consistent delivery through CI/CD pipelines.

Industry: Web3 / Creative Tech **Timeline:** Ongoing Retainer **Platform:** Web (React + Node)

Scope: Embedded Development, Feature Delivery, DevOps Support

Challenges & Approach

- Needed remote developers who could integrate with fast-moving product teams
- Managed multiple project tracks across time zones and cross-functional roles
- KalTech assigned full-stack devs who joined Slack, pushed to GitHub, and delivered via sprint cycles
- Ensured CI/CD readiness, code reviews, and weekly velocity tracking



CRYTICAL 🇰🇷

Crytical–A Scalable Launchpad Ecosystem for Web3 Projects

CRYTICAL is a full-stack Web3 launchpad platform built to accelerate the growth of early-stage blockchain projects by connecting them with investors, partners, and communities across Asia and Europe. Designed to support multi-chain and AI-integrated startups, CRYTICAL offers tools for discovery, funding, and traction—all within a sleek and performance-focused experience. The system includes both a public-facing site for project exposure (crytical.io) and a secure admin portal (admin.crytical.io) for backend operations, content control, and application management.

Industry: Creative Tech / Community Building

Platform: Web App (React + Node.js + CMS)

Timeline: 4 Months

Scope: Application System, Admin Portal, CMS, Analytics, Global UX

Challenges & Approach

- Shifted to a modular platform with dynamic forms and real-time tracking.
- Built scalable React/Node.js app with clear user roles and workflows.
- Integrated CMS for easy admin control, Google Analytics, and auto-scaling via Vercel.
- Optimized infrastructure for SEO, high-performance, Web3, and AI readiness.

VLUE

Simplifying mutual fund investing with modern digital experiences

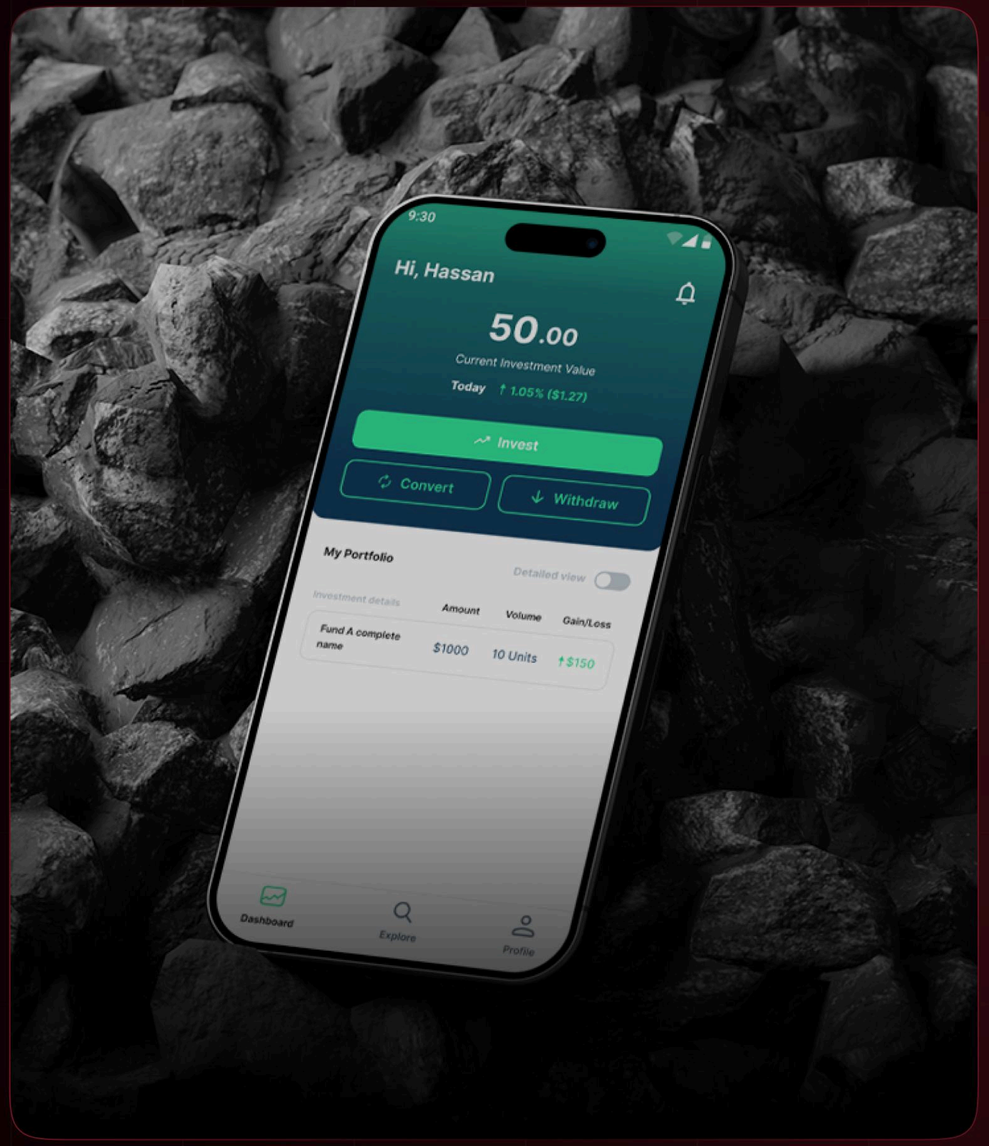
KalTech partnered with VLUE to support the launch of a comprehensive investment platform focused on ease, speed, and accessibility across mutual and investment funds. From strategy to deployment, we provided end-to-end support to bring their vision to life through a seamless mobile-first experience.

Industry: Investment / Fintech (Mutual Funds) **Platform:** Mobile App (iOS + Android) **Timeline:** Multi-phase

Scope: Strategy, UX/UI Design, Mobile Development, API Integrations, QA

Scope of Services

- Product Strategy & Consultancy
- Requirement Analysis & Feature Mapping
- End-to-End UX/UI Design
- Project Planning & Execution
- Mobile App Development & QA
- 3rd-Party Integrations (APIs)
- Pre/Post Deployment QA & Go-Live Support



TESTIMONIALS

TRUSTED BY VISIONARIES

Built on trust, proven by results.

Our clients trust us to deliver impact-driven solutions, and their words reflect the value we bring to every project—from strategy and design to full-scale development. These testimonials highlight the partnerships, outcomes, and experiences that define KalTech.

Hashim
Co-founder Muawin 🇵🇰

KalTech developed a robust, AI-enhanced loan management platform for us. Their ability to integrate intelligent automation helped us streamline decision-making and launch faster

Waqas Ahmed
Cloud Employees 🇬🇧

They didn't just build a beautiful site — they infused it with intelligence. Every element was optimized using real-time data

Hassaan
VLUE 🇸🇦

KalTech delivered our MVP fast — with personalized features powered by AI. Their grasp of KSA's market dynamics was spot on

Yousaf Ali
USA 🇺🇸

Kaltech has been a valued partner for us this past year! They have provided intelligent solutions for our needs while being very cost effective. I can't thank the team at Kaltech enough!
